

# The Earth is My Mother

The earth is my mother.

The earth is my mother.

She's good to me.

She's good to me.

She gives me everything that I ever need.

She gives me everything that I ever need.

Food on the table.

Food on the table.

The clothes I wear.

The clothes I wear.

The sun and the water and the cool fresh air.

The sun and the water and the cool fresh air.

There's just one thing.

There's just one thing.

She asks of me.

She asks of me.

I treat her as kindly as she treats me.

I treat her as kindly as she treats me.
