

All The Colors of The Rainbow

There are blue skies and white clouds

And green grass and brown earth

And all of them together blend

In perfect harmony.

Chorus:

All the colors of the rainbow

All the shades of light and dark

All the colors of the rainbow

How beautiful they are.

There are red flowers, And yellow flowers
And blue flowers, And white flowers
And every flower is a gift of love, And adds beauty to the world.

(Chorus)

There are red birds, And yellow birds
And black birds, And white birds
And every bird has wings to fly, And how high they all can fly.

(Chorus)

There are red people, And yellow people
And white people, And black people
There are many people, But every person
Is a person just the same.
