

# *Little Bit of Light*

*I've got some of the light in me  
You've got some of the light in you  
And a little bit of light from everyone  
Is enough to see us through.*

*I've got some of the truth in me  
You've got some of the truth in you  
And a little bit of truth from everyone  
And a little bit of light from everyone  
Is enough to see us through.*

*I've got some of the love in me  
You've got some of the love in you  
And a little bit of love from everyone  
And a little bit of truth from everyone  
And a little bit of light from everyone  
Is enough to see us through.*
