

Metamorphosis

2

One day to his surprise, the
light filled his eyes
Something new upon his
back
A lump filled his throat,
when he say his new coat
He spread his wings and
became a butterfly.

(Chorus)

1

A little caterpillar worm, crawling next to a fern
Decided there must be more to life
Than crawling on the ground, feeling damp &
down
He knew right then he wanted to fly.

Chorus:

**He wanted to fly, yes he wanted to fly
High up in the sky
To be filled with glee
To drink nectar you see
He wanted to be a butterfly.**

He had a fuzzy wuzzy coat, with a spot on his
throat
And 3 or 4 on his back
Tears filled his eyes as he said with a sigh
Will I ever fly before I die?

(Chorus)

He must take a chance, he crawled high on a
branch
A small cocoon room did he make
While praying for the best, his chin fell on his
chest
This caterpillar had what it takes.

(Chorus)
