

Onward Canoe

There's a song that we sing when we take to the rivers
With paddles that flash in the sun
There's a song that we sing when we shoot the wild rapids
Taking our joy in the run

Chorus:

*Singing.....Onward canoe
You're a voyageur's daughter
Setting our spirits free
Onward canoe*

*We're alive on the water
Flowing on down to the sea
Flowing on down to the sea*

There's a song that we sing, when we camp on an island
Under a blanket of stars

There's a song that we sing, when we rise with the
daybreak

Knowing that we'll travel far
Singing.....(Chorus)

There's a dream that we dream of a beautiful journey
Adventure to find on our way

There's a dream that we dream of the journey inside us
And the rapids we run every day.

(Chorus)
