

Peep Song

When the peep peep peepers are peeping along
It can only mean one thing
When the peep peep peepers are singing their song
You know that it must be Spring.

When the days are getting longer and the daffodils
bloom
You can hear those froggies sing
When the peep peep peepers are singing their tune
You know it must be Spring.

It's been a long cold winter
Full of ice and frost and snow
Now it's getting warmer and the sun is shining bright
There's one thing you can certainly know

When the peep peep peepers are peeping along
It can only mean one thing
When the peep peep peepers are singing their song
You know that it must be Spring.
